INTRODUCTION

Problem Statement

As people mostly use the manual process to do their rental services, it was not the perfect as the wanted.

The venders face these problems:

- In order to offer cars for rent, a car owner normally have to go to the nearest branch office to register car to be rent out.
- Cars that provide difficulties to rent out are normally advertised in local or national newspaper. It involves a lot of paper work and consumes time.

Objective

The main objective of the application car Rental System require a temporary vehicle, for example those who do not own their own car, or owners of damaged or destroyed vehicles who are awaiting repair or insurance compensation or travelers who are out of town.

How car rental service works

A car rental is a vehicle that can be used temporarily for a period of time with a fee. Renting a car assists people to get around even when they do not have access to their own personal vehicle or don't own a vehicle at all. The individual who want to rent a car must first contact the car rental company for the desire vehicle. This can be done online. At this point, this person has to supply some information such as; dates of rental, and type of car. After these details are worked

out, the individual renting the car must present a valid Identification Card.

Most companies throughout the industry make a profit based of the type of cars that are rented. The rental cars are categorized into economy, compact, compact premium, premium and luxury. And customers are free to choose any car of their choice based on their purse and availability of such car at the time of reservation.

Scope

This project traverses a lot of areas ranging to business concept, and required to perform several researches to be able to achieve the project objectives.

The area covers include:

- **Car rental industry:** This includes study on how the car rental business is being done, process involved and opportunity that exist for improvement.
- PHP Technology used for the development of the application.
- General customers as well as the company's staff will be able to use the system effectively.
- Web-platform means that the system will be available for access 24/7 except when there is a temporary server issue which is expected to be minimal.

SOFTWARE AND HARDWARE REQUIREMENTS

SOFTWARE CONFIGURATION:-

- OS: Windows/Unix/Linux
- Browser: Mozilla, Google Chrome, IE8, OPERA
- Server: XAMPP / Wamp / Mamp/ Lamp (anyone)

HARDWARE CONFIGURATION:-

- RAM: 2GB
- Processor: dual core
- Hard Disk – 50 GB or above

TOOLS USED IN DEVELOPMENT

EDITOR :

- Visual Studio Code

FRONT END TOOL(S) :

- HTML 5
- CSS 3
- AJAX
- JQUERY
- JAVASCRIPT
- BOOTSTRAP

BACK END TOOL(S) :

- PHP 5.5

DATABASE :

- MySQL

USERS OF CAR RENTAL SYSTEM

System Actors (Users)

- Admin
- Registered Users
- Guest Users

Admin Features

- Admin login
- Admin can add new vehicle brand details
- Admin can manage vehicle brand details(edit ,delete)
- Admin can add new vehicle details
- Admin can manage vehicle details(edit,delete)
- Admin can manage booking details(admin can confirm and cancel booking)
- Admin can manage testimonial details (active and inactive)
- Admin can manage contact us query
- Admin can check all registered users details
- Admin can update other page content like about us details, term and condition page etc
- Admin can update the contact details dynamically
- Admin can manage subscribers
- Admin can change password
- Admin dashboard has(count all users, count total booking, count total subscribers, count total queries etc)

Registered User Features

- New user can register through registration page
- Registered user can login with valid email and password
- User can recover forget password after providing some correct information
- User can find car details and booked car
- User can view car booking history
- User can check booking status(admin can approve or disapprove)
- User can update their profile
- User can update their password
- User can add new testimonials
- Logout

Guest user features

- Guest user can view the website and surf/find car details
- Guest user can also enquire through contact us page.

1	Basharat Nawaz	basharatnawaz78@gmail.com	2147483647	Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum	2017-06-18 15:33:07	Read
